MEMORANDUM

SUBJECT: Notification of Errors in the Technical Amendment to the Third Third Land Disposal Restrictions (LDRs), Published January 31, 1991.

FROM: Rhonda M. Craig, Workgroup Chair

TO: EPA Regional LDR Contacts

Attached is a copy of the Technical Amendment to the Third Third LDR final rule that was published on January 31, 1991, and an errata sheet of the mistakes that have been identified to date in the treatment standard tables (40 CFR 268.41, 268.42, and 268.43). These mistakes came to light after the Technical Amendment was signed, thus it was too late to make changes. The errata sheet, of course, has no regulatory effect; it is for your information since you may be receiving calls from the regulated community about these mistakes.

If you have further questions, feel free to call me at 703-308-6482 or FTS 398-6482.
